

MX66 HAND BLENDER WITH WHISK

DESCRIPTION

The hand blender MX66 is reliable and very quiet and its 500 watt powerful professional motor makes it the perfect tool for long-term mixing. In order to achieve excellent results, this unit features electronic 2 speed regulation, to allow moving smoothly from a less intense operation at a high speed without any interruption. The stainless steel immersion rod is equipped with a special four blades cutting set: very easy to disassemble for a convenient cleaning, it can be replaced with the whip accessory, ideal for whisking eggs in a few seconds.
