

## MX67 HAND BLENDER WITH KIT

### DESCRIPTION

The hand blender MX67 is reliable and very quiet and its 500 watt powerful professional motor makes it the perfect tool for long-term mixing. In order to achieve excellent results, this unit features electronic 2 speed regulation, to allow moving smoothly from a less intense operation at a high speed without any interruption. The stainless steel immersion rod is equipped with a special four blades cutting set: very easy to disassemble for a convenient cleaning: the rod can be replaced with the whip accessory, ideal for whisking eggs in a few seconds or with chopping bowl with stainless steel blades to transform it in a convenient chopper.
