

ML55 MILK FROTHER

DESCRIPTION

Our milk frother ML55 integrates 3 user settings: in less than 3 minutes you will be able to heat up to 300 ml of milk for your breakfast, mount your milk it to prepare a soft and creamy cappuccino, or you can create a soft foam from cold drinks, for preparing tasty cocktail or refreshing cold coffees. Equipped with a powerful 650-watt motor, the frother ML55 is able to give you dense hot foam also from whole, soy or almonds milk, and, thanks to its special nozzle and the comfortable base with 360 ° rotation, you can serve your cappuccino directly on the table without wasting even a drop.
