

GH75 ICE CUBES MAKER

DESCRIPTION

Equipped with a latest generation super silent compressor, the ice maker GH75 is convenient and economic, ideal for your daily use at home: in a few minutes you will have ice cubes, big or small depending on your preference, to prepare refreshing cocktails, cool and tasty drinks or to garnish your appetizers. Thanks to its excellent production capacity of 12 kg of ice in 24 hours of continuous operation, this unit is able to satisfy the needs of a small business or catering: simply load the tank, press the start button and make sure to always keep it full and this machine will produce about 1400 cubes well separated and ready to be used. Featuring automatic shut-off with empty water tank or full ice box, our ice maker GH75r comes with shovel and ice container for your maximum convenience.
