

RB76 FOOD PROCESSOR

DESCRIPTION

Food processor RB76 makes you save time in the kitchen by reducing pre-cutting operations: thanks to its excellent load capacity of 1200 cc, this unit is able to accommodate large and small ingredients, giving you great freedom during the preparation of your favourite recipes. Technologically innovative and aesthetically modern, the food processor RB76 can easily find space in the kitchen on the countertop thanks to its vertical structure, while its compact design allows you to store it comfortably after use, without taking up too much space. The combination of great 600 watt power and 2 working speeds guarantee excellent results: perfect for mixing, homogenizing and to create a perfect emulsion, thanks to its accessories, this unit is ideal for mincing, grinding and chopping meat and fish, grating bread and cheese, pureeing, slicing and cutting vegetables, crumbling herbs and whisking the eggs. All the cutting accessories and the bowl are fully removable to ensure an easy and quick cleaning.
