

BS46 CONTACT GRILL

DESCRIPTION

Compact size and stainless steel made, BS46 offers several features: it can be used like a traditional contact grill, Panini press to prepare tasty sandwiches, such as half plate griddle or completely open for grilling fish or meat, doubling the cooking surface. It has a large anti-burn handle and the temperature control knob and power indicator lights and "ready to grill" are placed on the base for your convenience. The unit is equipped with two large removable non-stick plates with special "Petravera" coating: these innovative non-stick plates with stone effect will allow a healthier, natural and fat free cooking.
