

## MX37 HAND BLENDER

### DESCRIPTION

This hand blender features a powerful motor (500W) that allows it to perform the most difficult operations. Its shaft can be used both with cold and hot foods, and is easy to clean because it can be dismantled and cleaned separately. Moreover it has an ergonomic handle that makes it comfortable during use even for users with small hands, and it's activated by the intelligent "FeelSpeed" command, to regulate the speed and have a perfect result at the end of operation.
