

PC25 HAIR STRAIGHTENER

DESCRIPTION

The hair straightener PC25 is functional, innovative and very easy to use. The ceramic allows a uniform diffusion of heat on the surface of the plates and greater protection of the hair, to get silky and shiny hair without frizz. Ready in 3 minutes, our PC25 straightener is equipped with large floating plates that allow excellent smoothness and a power switch with indicator light. The temperature is adjustable from 80 to 230 degrees Celsius and, to ensure maximum maneuverability, is equipped with 360 degree swivel cable with ring to be easily hung after each use.
