

CT10 ELECTRIC KNIFE

DESCRIPTION

The electric knife CT10 is the perfect combination of excellent performance and versatility of use: equipped with powerful DC motor and ergonomic handle, it comes with two sets of stainless steel notched knives, which ensure a clean and precise cut with both meat and bread. Simple and quick to use, this electric knife is able to cut your bread even frozen, effortlessly slice aged cheeses and make precise slices of turkey and roast beef. The blades are easily removable and dishwasher-safe.
